

**Measured Performance:**

Customer: Fortune 500 Food Processor Application: 125hp motor IntegraPower Unit Installed: 200A			
Measured Performance	Before:	After:	Reduction/ Savings
Power Factor	0.36	0.39	0.03
KW	49.3	39.3	10 20.28%
KVA			

**Summary:**

This is a great example of the following:

- Penetration of another important vertical market segment: Food and Beverage Processing
- Local distributors and PPL working to not only deliver product, but also complete the installation.
- IntegraPower products being installed within a sophisticated motor control network and integrating with the communications system.
- IntegraPower units providing secondary benefits such as soft start and contactor replacement.
