

Measured Performance:

Customer: Southern Star Concrete			
Application: 25hp motor, sand/gravel conveyor			
IntegraPower Unit Installed: 60 Amp			
Measured Performance	Before:	After:	Reduction/ Savings
<i>Power Factor</i>	0.36	0.39	0.03
<i>KW</i>	4.29	3.29	1 23.31%
<i>KVA</i>	11.86	8.48	3.38 28.50%

Summary:

This is a great example of the following:

- The EnergyWise program being used to open up another important vertical market segment: Concrete/cement manufacturing and distribution.
- Identifying and understanding candidate motors within a concrete processing application.
- Local distributors, dealers and other representatives benefiting from hand-on training at a customer site
- There are secondary benefits associated with the IntegraPower products such as soft start which can significantly extend motor life.
